

Nature knocks

Eco Club of Maharaja Surajmal Institute works in accordance to Government and other approved agencies

Club Constitution

“What is the use of a house if you haven’t got a tolerable planet to put it on?” — Henry David Thoreau

Who are we?

To give our children a future we all long for let us first urge them to love the earth before we ask them to save it

As we soar high in our professional life, so busy coping with a plethora of things for our personal growth, we tend to neglect the environment and how merciful it has been to us! Understanding the very need to inculcate youth towards bringing a change, in 2019, Maharaja Surajmal Institute, New Delhi took a significant step to commence its own Eco club- ‘Natureknocks’.

NatureKnocks is a student led volunteer club with the aim to implement sustainability as a part of daily lives of the citizens to make our nation and planet a better place for our future.

Sustainability has now been an integral part of businesses functioning around the world, incorporating new practices like sustainable finance, social impact, SDG adherence etc. The club functions on the footnotes of such issues so that the students are aware of such concepts and can implement these in the real business world for bringing about a positive change.

Mission:

Nature Knocks aims to develop sustainable mindset in the future leaders of the world for bringing change at the very grass-root level in the careers of individuals. We understand that

how important it is to take baby steps and just not think of a bigger picture rather putting the building blocks together

Organise awareness camps , quiz , acts and various other competition to inculcate students about environment and it's protection

Plantation drives to build an attitude to help the land be greener and growth of individuals.

Teach students skills and help them take proactive steps towards a healthy society.

Organise more painting, essay, rallies for spreading quick awareness.

Vision:

Nature Knocks foresees the 21st century students as a positive change-makers in the society and implementing new practices and policies towards a brighter and sustainable India.

Nature Knocks Guidelines:

- * The members must ensure that they put in their efforts to make the campus a plastic free campus.
- * The members must ensure to reduce wastage, reuse items which they can and recycle their waste.
- * The members must spread knowledge about environmental issues and sustainability as a solution.
- * The members must try to reduce their carbon footprint through opting eco friendly alternatives like public transportation.
- The staff and students are strictly prohibited from carrying plastic bottles.
- The staff and students must carry their lunch in non plastic boxes.
- The staff and students are encouraged to put their left over water in bottle in the garden area and not in sinks or floors.
- The canteen is strictly not allowed to serve plastic forks, spoons, cups etc. to any staff or student. Tea must be served in glass cups to staff or paper cups only.

-

How we follow Environment Protection Act, 1986:

Prevention, control and abatement of environmental pollution is well taken care of by the members and participants.

Organising all the awareness events and programmes in the college ,as per directed by the government.

Making sure our events take place keeping in mind the quality standard be of environment.

Restricting people of our club and around us to discharge or permit to discharge any air pollutants.

Strict action are taken against people who are seen violating the environmental laws and harming it in any sense.
