

DIRECTOR DESK

RAJBIR SINGH, *Ph.D.*

It is with a deep sense of honour and responsibility that I step into the role of Director at Maharaja Surajmal Institute, a premier institution known for its academic excellence, vibrant campus, culture and commitment to holistic education.

With a career spanning over three decades in higher education, consulting, research and administration, I have witnessed the evolving landscape of academia firsthand, after concluding LEAP program from Government of India and observing & learning education system across USA, JAPAN, BRAZIL & China. My Journey from Kurukshetra University as an alumnus for Ph.D. in Management with a focus on Corporate Mergers and Acquisitions to mentoring students and leading departments have been a transformational period of my voyage. My association with public universities like Kurukshetra University and DCRUST for consulting and teaching, has been driven by a single belief: Education is the most powerful tool for societal transformation.

At MSI, I see immense potential in our students, faculty and Institutional ethos. As we navigate a world shaped by rapid technological, economic, and social changes, our goal must be to not only impart knowledge but to nurture innovation, integrity, and inclusivity. True Education goes beyond degrees; it must empower individuals to think critically, adapt confidently, and lead responsibly. We aim to foster an environment where students grow not only intellectually, but emotionally and ethically. As academic leaders, it is our responsibility to serve as role models upholding values of discipline, humility and purpose. Through stronger industry-academia linkages, inter disciplinary learning and research-led thinking, MSI will continue to be a guiding force for change.

Together, let us create a community where curiosity thrives, values are cherished, and the leaders of tomorrow emerge prepared not just for careers, but for life itself.

Warm regards,

Rajbir Singh

Director, Maharaja Surajmal Institute
